

Case Study:

Leigh Mental Health Unit

Location: **Atherleigh Park, Leigh**
 Project Value: **£933,000**
 Duration: **2016**
 Client: **5 Boroughs Partnership NHS Foundation Trust**

Atherleigh Park is a new £40 million mental health hospital built on Atherleigh Way, Leigh.

Formerly Leigh East Amateur Rugby League ground, the 3.9-hectare site will be split in to two separate buildings providing high quality inpatient services for adults suffering from mental ill health as well as patients with dementia and memory conditions.

The adults' building – phase one – will provide safe and comfortable individual en-suite rooms for up to 48 adults, split over male and female wards and a psychiatric intensive care unit. Phase two will see the creation of 42 en-suite rooms for those being cared for by our later life and memory service.

This is an increase in both the quality and number of beds available at Leigh Infirmary, where the Trust currently cares for patients.

The site will include facilities to promote physical health and wellbeing, communal areas, a café, landscaped gardens and a nature trail.

DATIM as a P21+ Standard component supplier were pleased to manufacture and supply the complete internal Doorsets and Ironmongery package including SALTO and PRIMERA access control.

European Oak veneer doors were chosen within the hospital with Vistamatic vision panels complimented by the **ANTI-LIGADURA** Stainless Steel ironmongery collection by **DATIM**. All are covered by our unrivalled guarantee to meet the demanding requirements of the mental health environment with sever duty rated Doorsets specially designed for protection for both the service users and the staff, and include anti barricade removable stops, hardwood tri-laminated core doors and vandal resistant ironmongery.
