

Case Study:

Shaw Healthcare

Location: **South England (Various sites)**
 Project Value: **£25 - 50,000 each**

Shaw Healthcare has grown from its origin as a registered housing association to one of the UK's leading healthcare providers largely through partnership with public agencies for both health and social care.

Datim was requested to provide a complete Architectural Ironmongery Solution for over 10 sites throughout the South of England, a bespoke fully working sample board was built and presented to the project Architects and the client for approval.

The range chosen by the client was the Royal Satin Aluminium collection by Datim.

The range selected is robust and comes with a 15 year guarantee, giving the main contractor and the client

the peace of mind they required, the range was complimented with bespoke signage, Access control and many other ancillary fittings, all fully compliant to the clients' demands of document M, fire and acoustics.

The Ironmongery was fully scheduled by our GAI team members and each door bagged separately by our FOC 'Doorpac' service and delivered from stock.
